Pal and Buddy sponsor our Sunday school mission projects, helping us to understand that we can love our neighbors near and far!!

This is Honey. This sweet bird is so happy because she knows that God's love for us is bigger than the sky. She knows that we can share that love with other people too! They have mini worship celebrations to share just how happy they are that God loves us soooooo much! The children worship with singing and dancing, wiggles and giggles.

This is Trek. He reminds us that what we learn about the way Jesus lived his life will help guide our path ! We even have a passport to help us record what we learn along the way!
